$$\textcircled{1} \quad 12 : 18 = 2 : \square$$

Diagram: A horizontal line above the numbers 12 and 18 is connected by a vertical line to a horizontal line above the number 2. An arrow points from the end of this second horizontal line down to the empty square box.

$$\textcircled{2} \quad 6 : 9 = \square : 3$$

$$\textcircled{3} \quad 81 : 63 = 9 : \square$$

$$\textcircled{4} \quad 21 : 28 = \square : 4$$

名まえ _____

・ 等しい比を作しましょう。

① $12 : 18 = 2 : 3$

Diagram showing the simplification of the ratio 12:18 to 2:3. A horizontal line above the numbers 12 and 18 is labeled $\div 6$. An arrow points from this line down to the number 2. A horizontal line below the numbers 18 and 3 is labeled $\div 6$. An arrow points from this line up to the number 3. The number 3 is enclosed in a rounded square box.

② $6 : 9 = 2 : 3$

Diagram showing the simplification of the ratio 6:9 to 2:3. A horizontal line above the numbers 6 and 9 is labeled $\div 3$. An arrow points from this line down to the number 2. A horizontal line below the numbers 9 and 3 is labeled $\div 3$. An arrow points from this line up to the number 3. The number 2 is enclosed in a rounded square box.

③ $81 : 63 = 9 : 7$

Diagram showing the simplification of the ratio 81:63 to 9:7. A horizontal line above the numbers 81 and 63 is labeled $\div 9$. An arrow points from this line down to the number 9. A horizontal line below the numbers 63 and 7 is labeled $\div 9$. An arrow points from this line up to the number 7. The number 7 is enclosed in a rounded square box.

④ $21 : 28 = 3 : 4$

Diagram showing the simplification of the ratio 21:28 to 3:4. A horizontal line above the numbers 21 and 28 is labeled $\div 7$. An arrow points from this line down to the number 3. A horizontal line below the numbers 28 and 4 is labeled $\div 7$. An arrow points from this line up to the number 4. The number 3 is enclosed in a rounded square box.
