

【正負の数B12】

## 3数以上の加減2(減法に注意)

⑫仕上げ

・次の計算をしなさい。

$$\textcircled{1} \quad 6 + (-8) - (+2) + 7$$

---

$$\textcircled{3} \quad 2 - (-5) + (-6)$$

---

$$\textcircled{2} \quad -8 + 4 + 9 - 11$$

---

$$\textcircled{4} \quad -9 + 3 + (-2) - (-5)$$

---

・次の計算をしなさい。

$$\textcircled{1} \quad 6 + (-8) - (+2) + 7$$

$$= 6 + (-8) + (-2) + 7$$

$$= 6 - 8 - 2 + 7$$

$$= 6 + 7 - 8 - 2$$

$$= 13 - 10$$

$$= 3$$

3

$$\textcircled{2} \quad -8 + 4 + 9 - 11$$

$$= -8 - 11 + 4 + 9$$

$$= -19 + 13$$

$$= -6$$

- 6

$$\textcircled{3} \quad 2 - (-5) + (-6)$$

$$= 2 + (+5) + (-6)$$

$$= 2 + 5 - 6$$

$$= 7 - 6$$

$$= 1$$

|

$$\textcircled{4} \quad -9 + 3 + (-2) - (-5)$$

$$= -9 + 3 + (-2) + (+5)$$

$$= -9 + 3 - 2 + 5$$

$$= -9 - 2 + 3 + 5$$

$$= -11 + 8$$

$$= -3$$

- 3
