

・次の計算をしなさい。

$$\textcircled{1} \quad (-4) - (-4)$$

$$\textcircled{4} \quad (+5) - (+8)$$

$$\textcircled{2} \quad (+6) - (-6)$$

$$\textcircled{5} \quad (-10) - 0$$

$$\textcircled{3} \quad 0 - (-2)$$

$$\textcircled{6} \quad (-9) - (-7)$$

・ 次の計算をしなさい。

$$\textcircled{1} \quad (-4) - (-4)$$

$$= (-4) + (+4)$$

$$= 0$$

$$\begin{array}{r} 0 \\ \hline \end{array}$$

$$\textcircled{2} \quad (+6) - (-6)$$

$$= (+6) + (+6)$$

$$= + (6 + 6)$$

$$= +12$$

$$\begin{array}{r} +12 \\ \hline \end{array}$$

$$\textcircled{3} \quad 0 - (-2)$$

$$= 0 + (+2)$$

$$= +2$$

$$\begin{array}{r} +2 \\ \hline \end{array}$$

$$\textcircled{4} \quad (+5) - (+8)$$

$$= (+5) + (-8)$$

$$= -(8 - 5)$$

$$= -3$$

$$\begin{array}{r} -3 \\ \hline \end{array}$$

$$\textcircled{5} \quad (-10) - 0$$

$$= -10$$

$$\begin{array}{r} -10 \\ \hline \end{array}$$

$$\textcircled{6} \quad (-9) - (-7)$$

$$= (-9) + (+7)$$

$$= -(9 - 7)$$

$$= -2$$

$$\begin{array}{r} -2 \\ \hline \end{array}$$
